Mr. Myron Drabiszczak

41329 May Creek Road

Gold Bar, Washington 98251

Mr. Drabiszczak;

On July 20, 2011 you contacted Sgt. R. Martin to file a complaint about the actions taken by a deputy at your home, 41329 May Creek Road, Gold Bar on July 18, 2011. In your complaint you alleged the deputy had "murdered" your dog and he had lied about what had taken place on your property.

Since filing your complaint, you have spoken with Sgt. R. Martin and also have given a written statement about your concerns. You have stated that you were not at your property when the deputy was there and shot your dog and that you live on a secluded parcel of land so it would be difficult for others to see what took place during the encounter between the deputy and your dog.

According to the deputy and his written statement, he had responded to your home at the request of other deputies to notify you of your brother's death. When the deputy arrived, the gate to your property was closed but not locked. The deputy stated that he opened the gate and entered your property to make the death notification.

Once he had driven to your home and exited his car, he was walking towards your house when your dog began running and barking at him in an aggressive manner. The deputy stated he tried to retreat to his car but was not able to out run your dog. He was not able to find other acceptable places to escape your dog and was afraid he was going to be bitten. According to

the deputy's statement, he shot your dog twice in self defense. Reportedly the dog was not killed by the two shots but was on the ground and still aggressive so for self defense and to put your dog out of his suffering, the deputy shot your dog one more time. This shot did end your dog's life. The deputy stated there was no one else around during or after the incident and that he covered your dog with a blanket and immediately returned to where the other deputies and your brother was and met you there. He stated he immediately told you about the incident which had occurred at your house.

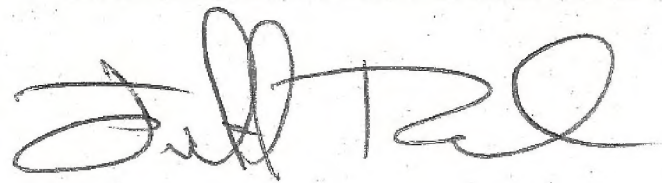

I am sorry for your loss but based on the information that has been obtained; I believe the deputy acted within Snohomish County Sheriff's Office policy and have closed this investigation as "Exonerated" of both charges.

Respectfully,

**JOHN LOVICK, SHERIFF**

While Myron was visiting my house on his way home from a Doctor's appointment he received a phone call from a friend of his brother. Unfortunately bad new of his brothers death, not a mile and ½ away from his home in Gold Bar. After receiving the call we then drove straight to Gold Bar City Hall where County officers usually reside. Discovering no officers there, we left towards Sultan Police department. On our way there we spotted Myron's brother's van with one sheriffs vehicle and one Snohomish County van. Upon arrival we told the officer on site who we were to the deceased. Instantly we were asked to back away from the scene until the Medical Examiner could view the body further. This whole time we were under the impression that this happened recently. After about 15 minuets and numerous call to Family members, the officer on site then proceeded towards where we were waiting no more then 15 yards away from the scene. After telling us that there was no more information needed other then Myron's and his Mothers address, we were asked to leave but we didn't. Not even being allowed to identify his brother's body we choose to stay. Now approaching 25 to 30 minuets at the scene, a second officer arrived, telling Myron he shot and killed his Dog while delivering information of his Brother's death. So I was thinking this was just to inform not respond to a domestic or threatening situation, which made no sense to me at all. Hearing sorry I shot your dog from the second officer felt as bad as hearing about his brother dying. We were overwhelmed with emotions and thinking where's this Officer's compassion. At this point I told the officer there may be grievance and this was way to Shocking at this moment. We then left to Myron's not obeying speed limit signs, not that that I cared since I was driving. Upon arrival at Myron's home we found the gate closed as he left it always. Coming down the driveway we saw a yellow tarp on the ground no more then 20 yards from the house. The dog had bad hips and normally greeted Family, Friends and others at this section of the driveway 60 yards in from the front gate. After removing the tarp and discovering the dog facing the front yard away from approaching vehicles, we knew Shadow was trying to get away from anyone carrying a gun. Knowing how much Shadow was afraid of guns and the loud report they make I could understand his exit strategy, unfortunately the yard was block with barricades after new Hydro-Seed was blown into the front yard limiting Shadow's ability to run and hide.

Growing up and raised by a King County Officer and Detective grandfather I decided to investigate Shadow's demise. Noting the fact that the last vehicle to enter the property came straight into the drive and came to an abrupt stop leaving tracks ten feet away from Shadow's resting place. This tells me Shadow was at his normal greeting place, and more then likely rounded the vehicle to the driver's door as always, barking. This makes me question why did the Officer leave his vehicle, seeing a 120lbs German Shepard greeting him with what he was trained to do. Were there any other alternatives for the officer to be able to inform someone at home of a non-threatening situation, intercom, car horn, or phone call to residence. It seems to me that none of these things were taken into consideration.
